Illustrations.

Names.

A

"AEROFLEX" Electric Fuse, 366
Allen, W. H., Sons and Co., Ltd., Steam Turbine Plant for Driving Cotton Mill, 52
America, Automatic Train Control in, 93
American Axle-box, 503
American Locomotive Company and Westinghouse Electric and Manufacturing Company, 4000 H.P. Two-unit Electric Locomotives, 96 (*Two-page Supplement, January 22nd*, 1926)
American Petrol-electric Rail Car, 361
Armstrong, Sir W. G., Whitworth and Co., Ltd., Six-coupled Engine, South Australian Railways, 5
Armstrong, Whitworth Aircraft, Ltd., 33
"Ajax" Reconnaissance Biplane, 33, 44
"Argosy" Three-engined Passenger Machine, 32, 33
Asturias, R.M.S.P. Motor Liner, Harland and Wolff, Ltd., 14, 17, 18, 79, 240, 244, 364
Ateliers de Construction de Charleroi, 1150 H.P. Colliery Winding Gear, with Double Water Rheostat, Cable Adjusting Device, &c., 210, 211, 214
Austin Lighting Company and National Gas Engine Company, Automatic Sub-station Plant, 263
Avery, W. and T., Impact, Rubber, and Spring-Testing Machines, 205, 206
Avonside Engine Company, Fireless Locomotive for Indian Jute Mill, 2, 3
Avro "Bison" Fleet-spotting Machine, 10 (*Supplement, January 1st*, 1926)
Avro-Lynx Seaplane, 10

B

BABCOCK and Wilcox, 50 H.P. Cold-starting Oil Engine, 247
Babcock and Wilcox Marine Type Boilers at Langerbrugge Power Station, 570 (*Two-page Supplement, June 4th*, 1926)
Bagnall, W. G., Ltd., Metre Gauge Engine for Madras and Southern Mahratta Railway, 3
Baird, J. L., Transmitting and Receiving "Televisors," 641
Baker, Perkins' Linoleum Mixer, 119
Baldwin Locomotive Works, Diesel-electric Locomotive, 268
Barclay, Curle and Co., Ltd., Union-Castle Liner Llandovery Castle, 7
Barry, Catlere and Shepherd, Inspection and Take-off Ends Machine, 202
Beardmore Two-seater Fighter Aeroplane, 33
Beardmore, William, and Co., Ltd., Lloyd Sabaudo Liner Conte Biancamano, 8 (*Supplement, January 1st*, 1926)
Beaumont, W. Worby, and Leslie N. Burt, Modern Development of Paper Mill Plant, 463, 476, 505
Bengal-Nagpur Railway—"Garratt" Locomotive; and Boiler, Beyer, Peacock and Co., Ltd., 586
Benton, W. A., Some Aspects of Friction, 404, 430, 458
Bertrams' Cork-grinding Mills, 116; and Four-roll Linoleum Mixer, 117
Bertrams' Linoleum Backing Machine, 150
Bertrams, Ltd., Linoleum-cement Mixing Pan, 91, 92
Bertrams' Linoleum Edge-trimming Machine, 151
Bertrams' Linoleum Varnishing Machine, 203, 204
Bertrams' Paint Mill with Three Granite Rolls, 233; Paint Mixer, 232
Bertrams' Wall Pug Mill, 232
Beyer, Peacock and Co., Ltd., Garratt Engine for Indian State North-Western Railway, 3; and Experimental Ljungström Type, Geared Turbine Locomotive, 3, 4
Beyer, Peacock and Co., "Garratt" Locomotive; and Boiler, Bengal-Nagpur Railway, 586
Blackstone Company, Ltd., Oil Engines, 100 B.H.P. and 5 H.P.; also with Special Fuel Oil Injection, 207
Blohm and Voss, Double-acting Two-cycle Oil Engine, 134
Blohm and Voss and Siemens' and Schuckert, 10,000-Kilowatt Generator Set, 662
Bodmin Transmitting Station Machinery Hall, 79
Boulton and Paul, Ltd., Metal Aeroplane Developments: Duralumin Wing Rib, Steel Main Spar, 306
Bow Generating Station, 22 (*Supplement, January 1st*, 1926)
Bowden-Smith, "Ismailia" Flap Valve, 160
Bretland, A. W., Relaying Railway Track by Machine, 75
Bridgewater Wireless Receiving Station Aerials, 79
Bristol Aeroplane Company, Ltd., 34
Bristol "Bloodhound" Test Results, 35
Bristol Variable Timing Gear, 34
Britannia Foundry Company, Sand Sifter, 631
British Brown-Boveri, Ltd., Induction Regulators, Hand-operated; Double; Oil-immersed; Automatically-controlled; Rapid Motion and Slow Motion, 516–518
British Electric Transformer Company, Berry Pressure Regulators; Main and Three-phase Transformers and Boosters; Booster Regulators; Motor-controlled Booster Panels; Lamp Indicator, &c., 487–491
British Industries Fair, 205
British Insulated Cables, Ltd., Electrical Distribution System at Hawarden Bridge Steel Works, 610, 613
British Thomson-Houston Company, Induction Regulator and 3000-Kilowatt Rotary Converter, 548
British Thomson-Houston Company, Ltd., Motor Generators for Rugby Wireless Station, 40; (Correction), 107
Brookhirst Switchgear, Ltd., 647
Broom and Wade, 100 Cubic Feet Portable Air Compressor, 632, 633
Brown, Boveri and Co., 2000 K.V.A. High-pressure Steam Turbo Generators at Langerbrugge, 570, 572, 582 (*Two-page Supplement, June 4th*, 1926)
Brown, David, and Co., New Floating Reamer, 163
Brown-Sulzer Engine, New Type, with 35½in. Diameter Cylinders, 14, 19
Brugg Sub-station of the Swiss Federal Railways, 184, 188
Buck and Hickman, Improved Thread Milling Machine, 578
Buckton, Joshua, and Co., Ltd., Multiple-Lever Testing Machine, 442, 446
Builders' and Contractors' Plant, Ltd., The "Exe" Hoist, 491, 2
Burn, W. S., High-powered Oil Engines, 495, 534

C

CAMBRIDGE Instrument Company, Ltd., Combined Accelerometer and Air Speed Recorder, 37
Electrometer, Compton, 38
Moll and Berger Vacuum Thermo-element, 38
Canadian Pacific Railway Company's Liner Princess Marguerite, 8 (*Supplement, January 1st*, 1926)
Carlisle, Right Hon. Alexander Montgomery (Portrait), 300
Carrington, H., Bending and Torsional Strains and Stresses in a Loaded Crank Shaft, 520, 521
Caversham, Reinforced Concrete Bridge Over the Thames, 656, 666
Central Railway of Peru, Oil Burning Engine, Yorkshire Engine Company, Ltd., 4
Chloride Electrical Storage Company, Secondary Batteries and Exide-Ironclad Batteries, 206
Chorlton, Alan E. L., The High-efficiency Oil Engine, 360, 364, 394; (Letters), 363, 412
Cockburn's Ltd., High-pressure Valves for Boilers at Langerbrugge, 571 (*Two-page Supplement, June 4th*, 1926)
Cockerill, La Société John, Industrial Locomotives, 532
"Condor" Engine and Passengers' Cabin on Vickers Vanguard, 11
Constructional Engineering Company, Ltd., Vertical Boiler, 632, 633
Cork Manufacturing Company's Works, Cork Jointing, 270, 273
Craven Brothers, Ltd., Electric Traverser and Grab for Shearing Machine, 104, 105
Crossley Brothers, Machinery in Motion, 31 B.H.P. Horizontal Oil Engine; 1½-Kilowatt Lighting Set; Single-cylinder Two-stroke Crude Oil Engine with Separate Scavenging Pump, 108, 207
Cunard-Anchor Liner Caledonia, Fairfield Shipbuilding Company, Ltd., 8
Cunard Liner Carinthia, Vickers Ltd., 7

D

DAVIES, C. E., "Spread" of Metal in Rolling, 598, 626
Davy Brothers, Ltd., 1000-Ton Flanging Press, for Bridge Flooring, 674
Dawson, Sir Philip, and Professor S. Parker Smith, on Main Line Railway Electrification, U.S.A., North-Western States, 175, 233
U.S.A., North-Western States Electrified Railways:
Butte, Anaconda and Pacific Railway, 234, 235
Chicago, Milwaukee and St. Paul Railway, 175, 233, 235
Great Northern Railway (Cascade Tunnel Electrification), 234, 235
Inland Empire Railroad, 234, 235
De Bergue and Co., Ltd., Multiple Bar-shearing Machine, 100, 104, 105
Dennis Brothers Motor-driven Lawn Mower, 248
De Platen, B. and C. Munters, New Refrigerator, 220
Dickenson, J. H. S., Distribution of Silicates in Steel Ingots, 602
Dominion Machinery Company, Combined Chain and Chisel Mortiser; Sanding Machine: Woodworker, 248, 249
Duffield, Lindley, and Co., Ltd., Powdered Coal Plant at Dover, 319

E

EDINBURGH, St. Cuthbert's Co-operative Association Electrically-driven Bakery, 294, 298
Edwards' Automatic Stop Valve and Arrangement, 550, 551
Electricars, Ltd., Elevating Platform Trucks, 260
Ellis and Westle, Straight-line Inlaid Machine and Cutting Die, 204
Ellison, George, Oil-break Star Delta Motor Starter; Oil Circuit Breaker; 6600-Volt Starting Gear for Slip Ring Motor, 261
English Electric Company, Induction Regulator with Rotary Converter, 548
English Electric Company, Induction Regulators, 432, 433
English Electric Company's Metal-hulled "Kingston" Flying Boat, 12 (*Supplement, January 1st*, 1926)
English Electric Company, 110,000-Volt Transformer, 260, 261
English Electric Company, Turbo-generator at Bradford Electricity Works, 22 (*Supplement, January 1st*, 1926)
Evans, S., Foundry Sand Preparing Machine, 631

F

FAIREY Aviation Company, Ltd.:
Fairey "Fox" Day Bomber, 32
Farmer, Sir J., Norton and Co., Cork-dressing Machine, 116
Linoleum Backing Machine, 150
Linoleum Calendering Machines, Horizontal and Vertical, 150
Linoleum Polishing Machine, 151
Linoleum Mixing Machines and Drying Stoves, 117
Six-roll Linoleum Mixer and Combination of "German" and Six-roll Mixers, 118
Printing Press, Hand, 202, 203
Printing Machine, Twelve-colour Rotary, 202, 204
Ferranti, Ltd., 330,000-Volt Transformers for Sustained Arc, 48
Fielding and Platt, 12 B.H.P. Crude Oil Engine, 247

ELECTRICAL MATTERS:
"Aeroflex" Electric Fuse, 366
Alternating-current Pressure Regulators, 431, 459, 488, 516, 548
Alternating-current Switchgear, Brookhirst Switchgear, Ltd., 647
Arc, Sustained between Points 114in. Apart, 330,000-Volt Transformers, Ferranti, Ltd., 48
Arc-welding Plant, Portable, Siemens-Schuckert, Ltd., 561
Automatic Rotary Converter Sub-station, 218, 219
Automatic Sub-station Plant, Austin Lighting Company and National Gas Engine Company, 263
Automatically Controlled Power Factor Regulator and Connections, 460
Double-induction Regulator, 459, 460
Oil-immersed Self-cooled Induction Regulator, 460, 461
Oil-immersed Water-cooled Induction Regulator, Oerlikon Ltd., 461
Barking Power Station, 40,000-Kilowatt Parsons Turbo-generator Set, 21 (*Supplement, January 1st*, 1926)
Berry Step-by-step Pressure Regulators; Three-phase Transformer and Booster; Hand-operated Booster Regulators; Main Transformers and Boosters; Regulating Panels and Switches and Motor-operated Gear for, and Connections; Motor-controlled Booster Panels; Lamp Indicator; Relay Connections, British Electric Transformer Company, 487–491
Bow Generating Station, 22 (*Supplement, January 1st*, 1926)

ELECTRICAL MATTERS (*continued*):

Brugg Sub-station of the Swiss Federal Railways, 184, 188
Condenser Connections and Overwound-connected Condenser Equipment, 182
Converter, A New Electrical, The Binary, with Single-unit Ward-Leonard Set, 502
Diesel Generator Set, 10,000-Kilowatt, Blohm and Voss and Siemens and Schuckert, 662
Electrical Distribution System at Hawarden Bridge Steel Works, British Insulated Cables, Ltd., 610, 613
Electric Traverser and Grab for Shearing Machine, Craven Brothers, Ltd., 104, 105
Electric Trolley Omnibuses at Ipswich, Ransomes, Sims and Jefferies, Ltd., 493
Electrically Welded Gaswork Structures, J. Newell Reeson, 252
High-frequency Fatigue Tests, 434
High-pressure Cable Joints; Method of Insulating; Method of Applying Paper Insulation to; Ferrule for, Pirelli General Cable Works, Ltd., 261, 262
High-voltage Direct-current Testing Equipments, 658
Induction Regulators, Automatically Controlled; Oil-immersed; Rapid Motion; Slow Motion; Hand-operated; Double, British Brown-Boveri, Ltd., 516–518
Six-phase Induction Regulator, 549
Induction Regulators, Oil-immersed Self-cooled; Induction Regulator, Double, for Feeder Control, Metropolitan-Vickers Electrical Company, 432
Induction Regulator, 15,000-Volt Oil-immersed, Induction Regulator, Oil-immersed Water-cooled, English Electric Company, 432, 433
Intermediate Rotor, Motor and Motor Bogie of Single-phase 50-Cycle Electric Locomotive, Fried. Krupp, 606
Langerbrugge Power Station, 570, 582 (*Two-page Supplement, June 4th*, 1926)
Lift Gear, Electric, Steel Works Motor, General Electric Company, 262, 263
Locomotives, Electric—*see* Locomotives
Measuring Small Fluid Pressures, Electrical Method for, H. A. Thomas, 88
Mercury Vapour Rectifier, Hewittic, 260
Mercury Vapour and Static Transformer Sections of Sub-station, Hewittic Electric Company, Ltd., 21
Midi Railway, Miégebat Power Station, 376, 378
Motors, Small, for Various Uses, Motor-driven Polishing Buff, Manda Motors, Ltd., 261
Oil-break Star-delta Motor Starter; Oil Circuit Breaker, Starting Gear, 6600-Volt, for Slip-ring Motor, George Ellison, 261
Railways and Railway Equipment—*see* Railways
Rotary Converter, 3000-Kilowatt, with Induction Regulator; Induction Regulator for 1200-Kilowatt Rotary Converter, British Thomson-Houston Co., 548
Rotary Converter with Induction Regulator; Induction Regulator for Rotary Converter, English Electric Company, 548
Rotary Converter with Induction Regulator; and Connections, General Electric Company, 548, 549
Secondary Batteries and Exide-Ironclad Batteries, Chloride Electrical Storage Company, 206
Small Lighting Sets:
3 and 6-Kilowatt Sets, Austin Lighting Company and National Gas Engine Company, 206
1½-Kilowatt Set, Crossley Brothers, 206, 207
Supervisory Control Equipment for Automatic Sub-station, Metropolitan-Vickers Electrical Company, 22 (*Supplement, January 1st*, 1926)
Swiss Hydro-electric Supply, Alfred R. Sieveking, 519
Bus-bar System at Montbovon, 519
Pipe Arrangement at Broc Power Station, 519
Testing Static Transformers, Lindley Thompson and H. Walmsley, 158
Transformer, 110,000-Volt, English Electric Company, 260, 261
Trucks, 1-Ton and 2-Ton Elevating Platform, Electricars, Ltd., 260
Turbo-generator at Bradford Electricity Works, English Electric Company, 22 (*Supplement, January, 1st* 1926)
Turbo-generators, 2000-K.V.A. High-pressure Steam, Brown, Boveri and Co., 570, 582 (*Two-page Supplement, June 4th*, 1926)
Winding Engine, Electric, Model of, Fraser and Chalmers Engineering Works, 262, 263
Wireless Equipment—*see* Wireless Telegraphy

ELECTROMETER, Compton, Cambridge Instrument Company, Ltd., 38

ENGINES AND MOTORS:

Asturias, R.M.S.P. Motor Passenger Liner, Main Engines for, Harland and Wolff, 14, 17, 18, 78, 240, 244
Brown-Sulzer Engine, New Type, with 35½in. Diameter Cylinders, 14, 19
Cold-starting Oil Engine, 50 H.P., Babcock and Wilcox, 247
Condor Engine for Vickers' Vanguard, 11
Crude Oil Engine, 12 B.H.P., Fielding and Platt, Ltd., 247
Diesel Engine, 15,000 B.H.P., and 10,000-Kilowatt Three-phase Generator, Blohm and Voss and Siemens and Schuckert, 662
Double-acting Diesel Engine, 15,000 B.H.P., Blohm and Voss, 134
Double-acting Two-cycle Marine Oil Engine, Richardsons, Westgarth and Co., Ltd., 494, 495
Eight-cylinder Marine Oil Engine, Parsons Motor Company, Ltd., 447
Heavy Oil Engine, 66 B.H.P., National Gas Engine Company, Ltd., 206
Heavy Oil Engine, 300 B.H.P., for Yacht Propulsion, L. Gardner and Sons, Ltd., 422
High Efficiency Oil Engine, Alan E. L. Chorlton, 360, 364, 394; (Letters), 363, 412
High-powered Oil Engines, W. S. Burn, 494, 524
Horizontal 31 B.H.P. Oil Engine and Crude Oil Engine with Separate Scavenging Pump, Crossley Brothers, Ltd., 207
Inertia Governor, Ramsay-Jackson, 419
Links in the History of the Steam Engine, 402

- Specifications for Lubricating Oils for Use on Heavy Oil Engines, E. W. Johnston, 615

Association of Engineers, Manchester:
- Garratt Locomotive, R. H. Whitelegg, 392

Association, Incorporated, Municipal Electrical:
- Industrial Electric Heating, A. P. M. Fleming and J. H. Crossley, 669
- Operating Costs of Electric Battery Vehicles C. W. Marshall, 668
- Presidential Address, R. B. Mitchell, 635
- Supplies to Outlying Districts, S. E. Britton, 635
- Thirty-first Annual Convention at Glasgow, 635, 668

Institute, Iron and Steel:
- Annual Meeting, 447, 600, 627
- Coal-blending, D. Brownlie, 628
- Effect of Mass in the Heat Treatment of Nickel Steel, Dr. W. Rosenhain and others, 628
- Hardening and Tempering of High-speed Steel, A. R. Page, 630
- Hardness of Carbon Steels at High Temperatures, I. G. Slater and T. H. Turner, 629
- List of Papers Taken as Read, 630
- Ratio of the Tensile Strength of Steel to the Brinell Hardness Number, R. H. Greaves and J. A. Jones, 630
- Autumn Meeting Programme, 447, 630
- Bessemer Gold Medal Award, 600
- Past and Future of the Steel Industry, Sir W. P. Rylands, 574, 583, 601
- Programme, 447
- Report on the Heterogeneity of Steel Ingots, 528, 601
- Silicates in Steel Ingots, J. H. S. Dickenson, 528, 602

Institute of Marine Engineers:
- Electric-hydraulic Steering Gear, Dr. Hele-Shaw and T. E. Beacham, 506

Institute of Metals:
- Annual Dinner, 293
- Annual and Extraordinary General Meeting, List of Papers, 222
- Annual Meeting, 222, 292, 317, 345
- Extraordinary Meeting, New Articles of Association, 346
- Aluminium-Copper-Tin Alloys, Dr. D. Stockdale, 318
- Brittle Ranges of Bronze, W. L. Kent, 318
- Constitution of the Alloys of Silver and Tin, A. J. Murphy, 345
- Corrosion of an Ancient Tin Specimen, Professor C. O. Bannister, 346
- Crystal Growth in Recrystallised Metals, Dr. W. Feitknecht, 317
- Determination of Zinc Oxide in Brass, Dr. B. S. Evans and Mr. N. F. Richards, 346
- Die Casting of Aluminium Alloys, George Mortimer, 292
- Hardness of Cold-rolled Copper, S. L. Hoyt and T. R. Schermerhorn, 292
- Influence of Gases at High Temperatures, A. Glynne Lobley and Douglas Jepson, 318
- Intermetallic Compounds, W. Hume-Rothery, 345
- Macrostructure of Cast Metals, R. Genders, 317
- Mechanical Properties of a Nickel-Copper Alloy, H. J. Tapsell and J. Bradley, 346
- Single Crystals of Metals, Sixteenth May Lecture, Professor H. C. H. Carpenter, 559
- Soft Soldering of Copper, Dr. T. B. Crow, 318
- Softening of Strain-hardened Metals, &c., R. W. Bailey, 292
- Striation Due to Working or Corrosion, Monsieur A. M. Portevin, 346,

Institute of Physics:
- Relationship of Physics to Aeronautical Research, H. E. Wimperis, 613

Institute of Transport:
- Sixth Congress Programme, 468

Institution of Civil Engineers:
- Annual Dinner, 293
- April Examinations, 1926, Pass List (Interim) and Associate Membership, 565
- Construction of a Breakwater Head at Madras, Colin Robert White, 464
- Conversazione, 640; Three Lectures, Models and other Exhibits, Compressed Air Machinery, Monel Metal Parts, Metallurgical Exhibits, Optophone for the Blind, Manometer, Ventilating and Displacement, Vertical Vibrograph and Stress Recorder, Fan Brake Dynamometer, Dust Counter, 640
- Khyber Railway, Victor Bayley, 221
- Khyber Railway, Survey and Construction of, Colonel Gordon R. Hearn, 221
- Limiting Stresses, Discussion, 472
- October Examinations, 1925, Pass List, 161

ASSOCIATION OF LONDON STUDENTS:
- Calne Waterworks Company, Recent Improvements in the Works of, J. Kennard, 68
- Development of Harbour and Dock Engineering, Vernon-Harcourt Lecture, Sir Cyril Kirkpatrick, 24
- Driving a Cable Tunnel under the Thames, 242

BIRMINGHAM AND DISTRICT ASSOCIATION:

JOINT MEETING:
- Road Transport and its Possible Developments, Papers by Major F. C. Cook, Mr. C. Owen Silvers, and Sir John Thornycroft, and Discussion, 207, 208

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Electrical Engineers:
- American Switchgear, 192
- Application of Machinery at the Coal Face, Sam Mavor, 444
- Design of Storage Battery Locomotives for Use in Mines, L. Miller, 444
- Electric Traction on the Orleans Railway, H. Parodi, 408
- Electricity in Mines, R. Nelson, 444
- Improvement of Power Factor, Edgar Wall Dorey, 182
- Semi-Jubilee Dinner, 130
- Summer Meeting, 384
- Testing Static Transformers, Lindley Thompson and H. Walmsley, 158

SOUTH MIDLAND CENTRE:
- Joint Meeting on Road Transport, 207

WIRELESS SECTION:
- Frequency Variations in Thermionic Generators, Lieut.-Colonel K. E. Edgeworth: 70
- Propagation of Radio Waves, J. Hollingworth, 192
- Rugby Wireless Station, E. H. Shaughnessy, 448

Institution of Engineers and Shipbuilders in Scotland:
- Nobel Oil Engine, P. H. Wilson, 324
- Werkspoor Marine Oil Engine, G. J. Lugt, 193

Institution of Heating and Ventilating Engineers:
- Summer Meetings, 621
- Preliminary Programme, 621

Institution, Junior, of Engineers:
- Commercial Aspect of Foundry Work, J. Wolstenholme, 130
- Lifting and Shifting Machinery, C. H. Woodfield, 306
- Pipework: Its Manufacture and Lay-out, G. H. Willett, 351
- Power Stations in U.S.A. in 1925, Honorary Member's Lecture, W. H. Patchell, 224
- Tendencies in Modern Electric Practice, J. M. Seddon, 306

Institution of Mechanical Engineers:
- High Efficiency Oil Engine, A. E. L. Chorlton, 360, 364, 394; (Letter), 363
- Marine Oil Engines Trial Committee's Report, 65
- Measurement of Cutting Temperatures, E. G. Herbert, 24, 238—*see also* North-Western Branch
- Modern Development of Paper Mill Plant, W. W. Beaumont and Leslie N. Burt, 462, 476
- Piston Temperatures and Heat Flow in High-speed Petrol Engines, Professor A. H. Gibson, 122
- Summer Meeting at Ipswich, 645
- Applications of Engineering to Agriculture, Frank Ayton, 645, 647
- Modern Flour Milling Machinery, Lieut.-Colonel F. W. Turner, 635, 645, 670

MIDLAND BRANCH:
- Joint Meeting on Road Transport, 207

NORTH-WESTERN BRANCH:
- Cutting Temperatures, E. G. Herbert, 235
- Marine Oil Engine Trials Committee's Report, 134
- Some Mechanisms of Textile Machinery, W. A. Hanton, 296

Institution of Mining Engineers:
- Scholarship, Travelling Post-Graduate, Offered, 361

Institution of Municipal and County Engineers:
- Fifty-third Annual General Meeting and Conference, 506
- Meeting in the Scottish District, Programme, 561

Institution of Naval Architects:
- Annual Meeting, 349, 379, 405; Report, 349
- Annual Dinner, 351
- Comparative Freight Economics of a Cargo Vessel with Reciprocating and with Diesel Machinery, W. J. Lovett, 380
- Crane Equipment of Shipbuilding Berths, Ebenezer Smith, 406
- Experiments on Mercantile Ship Models in Waves, J. L. Kent, 381
- Experiments upon the Skin Friction of Smooth Surfaces, W. G. A. Perring, 381
- High-pressure Water-tube Boilers for Marine Purposes, Harold Yarrow, 405, 410, 411, 414
- Launching Problems, W. J. Berry, 350
- Method Used in H.M. Ships for Readily Correcting Heel and Trim, A. W. Cluett, 406
- Present Outlook for British Shipbuilding, A. C. F. Henderson, 349, 362
- Propeller Dimension Formulæ Based on Mr. R. E. Froude's Model Screw Experiments, Professor C. M. Carter, 381
- Recent Modifications to Water-tube Boilers of the Three-drum Type, Engineer-Captain L. M. Hobbs, 405
- Ship Wave Resistance, Comparison of Mathematical Theory with Experimental Results, W. C. S. Wigley, 381
- Spring Meetings, Programme, 296
- Summer Meeting in Belgium, 588, 660, 672
- Belgian Mercantile Marine, Monsieur A. Pierrard, 660
- Programme and List of Papers, 588
- Relative Efficiency of Turbine and Diesel Machinery, Sir John Biles, 660, 672
- Temperature Variation and Heat Stresses in Diesel Engines, Robert Sulzer, 379, 391

Institution, North-East Coast, of Engineers and Shipbuilders:
- High-powered Oil Engines, W. S. Burn, 494
- Electric Propulsion of Ships, Eskil Berg, 275
- What is Sea Speed? Reginald J. Eyres, 392

Institution, Royal, of Great Britain:

AFTER-EASTER SESSION:
- Friday Evening Discourses, List of Subjects and Speakers, 393
- Programme of General Courses of Lectures, 393

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

Institution of Water Engineers:
- Manchester Waterworks, 614
- Programme, 450
- Thirty-first General Meeting, 450, 617

Society, Faraday:
- Explosive Reactions in Gaseous Media, General Discussion, List of Papers, 633
- Explosive Reactions in Gaseous Media, 656
- I. Explosive Reactions, General Considerations:
  - Explosion Wave in Cyanogen Mixtures, Dr. Colin Campbell and Professor H. B. Dixon; Gaseous Explosions at High Initial Pressures; Ignition Point of Gases, Professor H. B. Dixon and others; Ionisation in Gas Explosions, W. E. Garner and S. W. Saunders; Ionisation and Gaseous Explosions, S. C. Lind; Radiation in Gaseous Explosions, Professor W. T. David; Uniform Movement of Flame, Professor R. V. Wheeler and Dr. W. Payman, 657
- II. Explosive Reactions in Reference to Internal Combustion Engines:
  - Combustion in Gas Engines, Professor W. T. David, 658
  - Effect of Metallic Sols in Delaying Detonation in Internal Combustion Engines, Flight-Lieutenant C. J. Sims and Dr. E. W. Mardles; Explosions in Petrol Engines, H. T. Tizard, 658

Society, Newcomen:
- John George Bodmer and Mechanical Stoking, David Brownlie, 164
- Matthew Murray, G. F. Tyas, 268

Society, Royal:
- Conversazione: Archimedian Loculus, Borehole Alignment Indicator, Pendulum Apparatus for Determinations of Gravity, Vibrations of an Autocar Illustration, Compression Tests on Aluminium Crystals, &c., 633

Society, Royal, of Arts:

Antimony, Uses of, in War and Peace, 581
Apprentices in the Engineering Trades, Education of, 337
Apprenticeship System for Contractors and Building Trades in British Columbia, 183
Argentine Machinery and Merchandise Demands, 71
Artificial Silk by Cellulose-acetate Process, Factory Projected in Canada, 43
Artificial Silk, Cheaper Qualities of, Factory Projected in Germany, 43
Artificial Silk, Mill Projected for, at Kendal, 43
Asbestos Cement, Projected Factory for, in Australia, 13
Asbestos Find in British Columbia, 153
Assay Laboratory at Lydenburg, South Africa, 13

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:

ASSOCIATION, BRITISH ACETYLENE AND WELDING:
Luncheon and Presentation for Valuable Service, 651
Oxygen Used for Cutting Blow-pipes, Effect on the Apparatus of any Loss of Purity, C. R. Houseman, 500

ASSOCIATION OF CONSULTING ENGINEERS:
Annual Dinner, 268

INSTITUTE, IRON AND STEEL:
Annual General Meeting, 167, 537
Annual Dinner, 167
Bessemer Gold Medal Award, 409

INSTITUTE OF METALS:
Annual Autumn Meeting at Liége, Programme, 440
Postal Ballot for Membership, 278

INSTITUTE, ROYAL, OF BRITISH ARCHITECTS:
Lincoln Cathedral Restoration, Use of Jack-hammers, Sir Francis Fox, 71
Royal Gold Medal Award, 425

INSTITUTE OF TRANSPORT:
Examinations for Graduateship and Associate Membership, 366
President-elect a Railway Director and Manager, 608

INSTITUTION OF CHEMICAL ENGINEERS:
Examinations for Associate Membership, 337
Tube Mill Grinding, Dr. G. Martin, 153

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

INSTITUTION OF CIVIL ENGINEERS:
Association of London Students: Forty-fifth Annual Dinner, 393
Awards for Papers, 624

INSTITUTION OF ELECTRICAL ENGINEERS:
A.M.I.E.E. Examination, 60
Design and Performance of Protective Relays, C. L. Lipman, 99
Faraday Medal Award, 140
I.E.E. Model Form of General Conditions "A," 258
Premiums for Papers, 596
Summer Meeting Postponed to Next Year, 568
Wireless Section: Radiogoniometer and Azimuth of Arrival of Wave Trains, Paper Read, 325

INSTITUTION OF FUEL ECONOMY ENGINEERS:
Communication to Secretary of Proposed New Fuel Institute, 621
Council Meetings, 111, 621
Formation and Objects, 43

INSTITUTION OF HEATING AND VENTILATING ENGINEERS:
Air Conditioning as an Aid to Industry, J. W. Cooling, 665

INSTITUTION, JUNIOR, OF ENGINEERS:
Annual Dinner, 509
Coal-cutting Machinery, Lecture, S. Reilly, 312
Meeting, Films Shown Illustrating Work at Sheffield Works of Vickers Ltd., 54
Paint Spraying, Lecture, F. E. Webb, 385

INSTITUTION OF LOCOMOTIVE ENGINEERS:
Automatic Mechanical Couplings for Railway Rolling Stock, A. M. Bell, 413

INSTITUTION OF MINING AND METALLURGY:
Awards of Gold Medals and Premium, 312

INSTITUTION OF NAVAL ARCHITECTS:
Annual Meetings, Dates, 152
Annual Dinner, 152
Award of Premiums, 265
Summer Meeting in Belgium, 481

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
Comparative Survey of American and British Signalling, Joshua Parsons, 497
Four-aspect Colour Light Signals, W. J. Thorrowgood, 385
Long-burning Signal Lamps, H. E. Morgan and F. J. Hookham, 43
New President and Members Elected, 183
"Proceedings," Publication of Interesting Papers, 553

INSTITUTION, ROYAL:
Annual Meeting, 540
Anonymous Donation, £500, 167
Elections, 167, 281, 540, 624
General Meetings, 167, 281, 540, 624
Lectures by Sir William Bragg on "X-rays and Living Matter," and Sir William Hardy on "Films," 86
Various Lectures Projected, Lecturers and Dates, 224

INSTITUTION OF STRUCTURAL ENGINEERS:
Annual Dinner—and Criticism, 453
Engineer and Chemist, Combination Highly Necessary for this Country, Sir Alfred Mond's View, 469
Impact of Wheels on Road Surface, Difference between Solid and Pneumatic Tires, Major R. A. B. Smith, 153
Portland House Scholarship, 624

INSTITUTION OF WELDING ENGINEERS:
Arc Welding of Seams in Steel Plates, J. T. Carr, 183

SOCIETY OF CHEMICAL INDUSTRY:
Annual General Meeting, The King as Patron, 153

SOCIETY, THE FARADAY:
Explosive Reactions in Gaseous Media, Discussion Organised by Society, 481
Temporary Appointment of Secretary and Editor, 665

SOCIETY OF GLASS TECHNOLOGISTS:
Visit to Osram Glass Works, Papers on Glass Technology, Luncheon, 651

SOCIETY, ILLUMINATING ENGINEERING:
Engine Drivers' Eyesight, Effect of Passing from Tunnels to Lighted Stations, 637

SOCIETY, LIVERPOOL ENGINEERING:
Development of Water Power Resources, A. E. Malpas, 13

ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):

SOCIETY, LIVERPOOL UNIVERSITY STUDENTS, LONDON:
Second Annual Dinner, 162

SOCIETY, NEWCOMEN:
Summer Meeting, 1926, 565

SOCIETY, ROYAL AERONAUTICAL:
President Elected, 469

SOCIETY, ROYAL, OF ARTS:
Ancient Cottages, Preservation of, Meeting to Discuss Measures for, 440
Roads, Danger of Cambering, Lieut.-Colonel Sir A. H. Burgoyne, 43

SOCIETY, ROYAL METEOROLOGICAL:
Symons Memorial Lecture, Advances in Atmospheric Physics, Professor Sydney Chapman, 363

SOCIETIES, PHYSICAL AND OPTICAL:
Exhibition, 13

AUTOMATIC Telephone Exchange at Manchester, 71

B

"BANK" Telephone Exchange Closed, 617
Barbed Wire, German Substitute for, 71
Baroda's New Harbour at Okha, 469
Bauxite or Clay, Extraction of Metal from, Professor N. Vittorf's Invention, 217
Bauxite in Montenegro, Large Deposits Discovered, 43
Bauxite Production in the United States, 553
Bauxite Reduction to Aluminium Oxide by Aid of Iron Ore Instead of Coal, 581
Bedrock Depth for Sheet Piling, Method of Ascertaining, 183
Beet Sugar Factory for Three Welsh Counties, 153
Bell, 15 Tons, for America Ordered from Croydon, 125
Berlin Projected Prize Competition for Caterpillar Tractor, 13
Beryllium, Properties of, 183
Birmingham Sewage Disposal, Sludge Gas Power Plant Installed, 553
Blast-furnaces—*see* Iron
Board of Trade Engineers' Examinations to be Suspended in August, 125
Board of Trade Navigation Certificates, New Test of Competency, 269
Board of Trade Returns, Exports of Machinery Show Highest Figure since 1913, 125
Boilers, Precipitates Forming in, Investigation in America, 43
Breakwaters in the Bay of Corinto, Pacific Coast, Projected, 213

BRIDGES:
See also Railways
Bascule Bridges for Welland Canal, 43
Blue Nile Flow, Possibility of Regulation and Irrigation Water Supply Improvement, 609
Bridge Colouring to Harmonise with House, 43, 71
Bridges Over the Vaal and Orange Rivers, Construction of Seven New, Proposed, 385
Cantilever Bridge, to Connect Rhode Island with American Mainland, 385
Finnieston, New Bridge Across the Clyde at, under Consideration, 213

Murray River, History of Old Bridge, 125
Murray River New Bridge, Second Longest in Australia, 71
Niagara Falls Cantilever Bridge, Unusual Rusting, 71
Old and New Bridges Crossing Newark Bay, N.J., Cost of, 293
Port Augusta, South Australia, Proposed Bridge, 13
Two-deck Continuous Girder Bridge Recommended to Connect North Brisbane with Kangaroo Point, 297
Umgeni River, Natal, Bridge Over, Completed, 385
Wear, Bridge Over, at Sunderland, Tender of Sir William Arrol and Co. Accepted, 478
Westminster Bridge as Sound as When Erected, 641

BRITISH Columbia's Hydro-electric Schemes, 637
British Columbia, Record Low Rate of Mine Fatalities, 385

BRITISH ELECTRICAL AND ALLIED INDUSTRIES RESEARCH ASSOCIATION:
Change of Methods of Classification of Insulating Materials, 255

BRITISH ENGINEERS' ASSOCIATION:
Improvement Reported in Overseas Trade Inquiries, 98
Overseas Inquiries, New Zealand's Extensive Requirements, 269

BRITISH ENGINEERING STANDARDS ASSOCIATION:
Electric Cable Specification, 481

British Engineering Industry, Share of World Trade, 153
British Factories to be Opened to Traders during British Industries Fair in Birmingham, 183
British Malaya's First Large Power Development Projected, 669
British Manufacturers' Increasing Contracts, 183
Budapest, Municipality's Extensive Programme of Improvements, 525
Buenos Aires, Port Improvement Projected, 413
Bullet-proof Screen, Reported Wonderful New Invention, 355

C

CABLE, New Underground, Between London and Glasgow, 71
Cables to be Laid between the Azores and Cape Verde, Italy and the Azores, and Between Lisbon and Malaza, 525
Cables, Long-distance, Reported Company for Manufacture at Prague, 385
Calcutta Drainage Scheme, 183
Canada, Impracticability of Formation of Sixth Great Lake, 355
Canada's Export of Motor Vehicles and Parts, 99
Canadian Export of Copper, Lead, Nickel and Zinc, 71
Canadian Hydro-electric Stations, Greatly Increased Horse-power, 269
Canadian Ilmenite Ores, Process under Development for Utilisation of, 497
Canadian Motor Industry, Highest Production Year, Statistics of, 325
Canal Expenditure in Canada, 441
Canal, New York State Barge, Question of Deepening, Canadian Views, 213
Canton Harbour Improvement, 243
Canvey Island, Scheme to Link up with Mainland by means of a Lock, 664
Carbon Dioxide, Solid, Production in America, 665
Carborundum, Annual Production, 413
Cargo Waiting for River Transport in Barranquilla, Colombia, 125
Carnival Dance, 137
Celluloid, Sheet, as Substitute for Tracing Cloth, 525
"Cellulose Enamels," A. E. Lain, 146
Cellulose Lacquer Production in United States, 385
Cement, Large Consignment of, from United Kingdom to Florida, 385
Cement Works Projected in New South Wales, 665
Central Heating by Exhaust Steam, 413
Chemical Factory in Australia, Allen and Hanbury's Investigation, 43
Chemical Processes, Steam Heating for, 385
China, Bulk of Electricity Imported, 22
China, North-West, Five Motor Roads Opened to Traffic, 297
Cinnabar Deposit at Kamloops Lake, British Columbia, Working Renewed, 13
Citroën Motor Car Works at Slough, 269
Clan Line Engineer Appointment, 212

COAL, COKE AND COLLIERIES:
Accidental Explosion of Blasting Charge, 153
Belgian Coal Pits Suffering from Floods, 99
Blast-furnace Coke Research at Sheffield University, 325
Blasting, Proportion of Large Coal and Method of Drilling, 43
Borings in Search of the Silkstone Seam, 37
British Coke Industry, Application of American Practice to, T. B. Smith, 269
By-product Coking Plant, Thirty-five Ovens, for Hamilton, Ontario, 421
Chemist's Assistance with Regard to Coal Mining Risks, 153
Coal for Australian Railways, Values of Content, 13
Coal Dust, Differing from other Dust, Said to be Harmless, Sir R. A. Jones, 153
Coal Mine with Electrically Driven Plant Supplied by Batteries in the Mine, 665
Coal Prospects Good for Present Quarter, 99
Coal Shipping Conveyor Projected for Newport, South Wales, 153
Coke Ovens at Blaydon Burn, Possible Restarting, 297
Coking Industry and Useless Waste, Professor R. Lessing, 183
Colliery Engineering Record, Dismantling and Installing a New Winding Engine, 525
Cuticle in Coal, Interesting Account of, V. H. Legg and R. V. Wheeler, 125
Doncaster Collieries' Association, Cable to Link Up Collieries, 497
Duty Reduced on Coal Imports to Switzerland, 99
French Coal Industry Strides, 43
Fuel Research Board:
Physical and Chemical Survey of Coalfields of Nottinghamshire and Derbyshire, 243
Report on Lancashire Coal Seam, 13
German Engineer to Report on Coal at Australian Works, 80
Great Britain's Week's Coal Output, 71, 183, 243, 269, 297, 413, 441, 469
Growth of Colliery Enterprise in Nottinghamshire, 125
Heat, Waste, from Colliery, to Supply Hot Water to Large Number of Houses, 269
Investigations and Tests in American Mine, Fruitful Results, 99
Kent Colliery, Progress of Shaft Sinking, 355
Lignite Coalfield Discovery in Saskatchewan, 441
Locomotive Coal Price Reduced in Yorkshire, 71
New Coal Discovered in Bargoed Steam Coal Colliery and Near Retford, 71
New South Wales Coalfield at Newcastle, Estimate of Coal Available, 13
New South Wales, New Coal Seam Near Dubbo, 273
Pulverised Coal, Conflicting Views as to Dust Effects, 153
Royal Commission on Coal Industry Report, Standardisation of Colliery Equipment, 355
Search for Coal Near the Black Sea and Output of Iron Mines to be Increased, 497
Six-foot Seam of Steam Coal, Port Talbot, 306
Swansea Valley, New Coal Pit to be Sunk, 385
Tasmania, Coal Output in, 43
Tasmania, Seymour Coalfield's Development, 665
Thickest Coal Seam Ever Discovered in Klip River Valley, South Africa, 497
Tipton Coal Seam Reached at Markham Colliery and Deep Soft Coal at Barlborough Colliery, 125
Top Hard Seam Reached Near Mansfield, 125
Turkish Coal and Iron Industry, Development, 385
Wemyss Coal Company, Firth of Forth, New Shaft to be Sunk by François Cementation Process, 276

Independent Power Plant, A Word in Favour of, 243
Insulators in Victoria Affected by Protracted Drought, Measures to Remedy the Trouble, 497
Ionisation Phenomena in Paper-insulated, High-voltage Power Cables, Research Investigation, 553
Locomotive, Electric Storage Battery, for Use in Coal Mines, £1000 Prize Award, 609, 637
Lots-road Generating Plant to be Augmented, 297
"National Significance of Electricity," 243
North-West Midlands Electricity District, Inquiry at Stoke-on-Trent, 71
Oil Engine, Ruston-Hornsby, for Electric Power Plant, in Ceylon, 43
Power Development Company's Electrical Project for Rural District, 269
Power Station for Middlesbrough, 71
Reinforced Concrete Arched Bridges to Carry Overhead Wires in Railroad Electrification, 297
Salford Electricity Committee Seeks Loan, 125
Sheffield and Government's Electricity Bill, 441
Steel-frame Two-storey Building Electric Arc Welded, 183
Stirling Castle, War Office Demand for Electrical Supply for, 153

ELECTRICAL MATTERS (*continued*):
Sutton Coldfield Increasing Demand for Electricity, 42
Towers for High-voltage Lines, "Kay" Preferred to Lattice, 43
Transmission Line Begun by Canada Northern Power Company, A Big Development, 553
Transmission Line, Electric Power, Projected New, for Ontario, 553
Tumbler Switches, J. H. Tucker and Co., Ltd., 412
Turbo-alternating Plant Projected for Bucarest, 269
Turbo-alternator for Japan, Metropolitan-Vickers Company, 413
Turbo-alternators for South Brisbane Power House, Tenders for Two Invited, 497
Turbo-generator, Easily a Record, Exhibited in Osaka, 581
Turbo-generators, 80,000 H.P. Each, 406
Turbo-generators, 45,000-Kilowatt, Highest Steam Pressure Claim, 243
Victoria Electricity Commission to Deal with Requirements for Further Energy, 581
West Bank Power Station, Installation of 10,000-Kilowatt Turbo-generator Set and Condensing Plant, 665
Worcester's Prosperous Electricity Scheme, 43
ELECTROLYTIC Zinc Company's Projected Researches in School of Chemistry, Melbourne, 637
Empire Mining and Metallurgical Congress, 1927, 258
Engines, Heavy Oil, Working Costs of, 99
Engine, Standard Marine, Tests, 312
Engineering Structures Considered Beautiful, 441
Engineers' Club, Birmingham, 453
Esquimalt Dry Dock, Ottawa, Ready for Ships, 333
Ether, Existence or Non-existence of, 553
Excavator, Dragline, New Type, 525
Exhaust of the Jackhammer as Assistance to Ventilation, H. S. Potter, 441

EXHIBITIONS:
Aeronautic Exhibition, Tenth International, 288, 665
British Chemical Plant Exhibition, 297
British Industries Fair at Castle Bromwich in 1927, 549
British Industries Fair, Newcastle-on-Tyne, Discussing Possibility of Local Section, 385
Canadian National Exhibition, Projected Additions, 43
Exhibition at Newcastle-upon-Tyne, Lighting Appliances, 312
International Laundry and Allied Trades' Exhibition, 525
International Oil Exhibition for London, 565
Norwegian Industries Fair at Oslo, 413
Philadelphia Exhibition, British Section at, 385
Physical and Optical Societies Exhibition, 13
Radio-technical Instruments Section at Padua Sample Fair, 441
Riga, International Fair, 469
Riga Fair and International Competition of Machinery, 497
Salonika, Trade and Industrial International Fair, 441
Swedish Industries Fair, 481

EXPLOSION of Cast Iron Stop Valve Chest, 297
Explosion of Heating Tube in Baker's Oven, Engineer's Report, 609
Explosion of Oxygen Cylinder and Effect of Sea Water, 153
Explosion, Unusual, in connection with High-speed Steam Engine, 441
Explosives, Authorised, Home Office List, 183
Explosives Inspectors, Appointments, 243

F

FACTORIES, Soda Powder, Paper Works, and Artificial Silk, Projected in China, 637
Fairs—*see* Exhibitions
